

January 2026 – *Papercraft Flowers*

Type / to choose a block

It was lovely to get back to the Craft Group for the first session of 2026. No less than 12 ladies turned up to be shown by Jean how to make a slightly fiddly paper flower.

There was a bit of muttering and frustration until we managed to master the art. Once we had done that it was interesting to try and glue things together with a glue gun without burning our fingers, but we managed.

The pictures show some of the finished results and many thanks to Jean for being very patient with us all.

February's craft will be something with mosaic's on Saturday 21st at 2pm in the Library.
